

March 12, 2021

Good afternoon Continuum of Learning families,

Transportation schedules are currently being realigned to address the increased number of in-person learning days using the information provided by parents earlier in the year. If a student currently rides the bus, we have a seat for him/her four/five days a week. If a student is currently being transported by the parent, the student will need to have the parent continue to provide transportation until further notice.

COVID-19 mitigation strategies necessitate working through capacity limitations on each bus. As such we are not sure if we can accommodate any parent requests to move from parent transport to bus transport at this time.

If you have transportation questions specific to your student(s), please submit them using this [FORM](#).

Thank you for your continued support of PCPS.
