March Faculty Meeting

Our March PHS faculty meeting will be dedicated to PBL challenges and ways to combat them. We will be sharing resources for issues such as student absences, student work and effort, checkpoints throughout the project, and more.

PBL Spring Support Visit

Eric will be back to offer support on March 21st and 22nd. He will have office hours on March 22nd as he did in the fall, and on the 21st he will provide optional half-day trainings (PBL 201). Click on this link to see the PBL 201 module schedule.

What’s the right dosage of PBL?

Check out this interesting blog post from bie.org regarding ways to incorporate PBL into your everyday teaching practices. BIE argues that PBL should be implemented at least 2-4 times a year for the following reasons:

1. The effects of PBL are cumulative.
2. Students will get better and better at working in a PBL environment—and might even be transformed.
3. PBL will become easier for teachers to use.
4. As PBL takes root, school systems will have to make changes that will benefit students and teachers.
